Message from the Chaplain - Ian Lutze

Wisdom of the Elders

In a 'loving Christian home', as we claim to be, it makes sense that you'd find people reading and studying the Christian Scriptures (the Bible) on a regular basis. This happens on an individual level as people do their own private Bible reading. We'd like to also provide this opportunity in a group setting for people.

Thus the re-launch of 'Wisdom of the Elders' – an activity that happened regularly before Covid changed things. Wisdom of the Elders is happening on the last Friday of the month in the Chapel at 10.30. We'll meet twice in May (2nd as well in lieu of Anzac Day).

Part of my inspiration for this came from reading the biography of Dietrich Bonnhoeffer, the German theologian and pastor murdered by Hitler in 1945. People studied the Bible in his day, but usually just as an interesting historical document. Bonnhoeffer helped reinstate the idea that God actually speaks to us through the Bible. The Bible is God's 'love letter'.

Wow, imagine the Creator speaking words of Love to us through a written book! That's the hope of Bible Study. Sometimes it's tricky to find God's voice, and that's where listening together helps. Luther spoke about sometimes having to give a text a good shake to find the loving intent. We can expect * Email: info@tlhome.com.au some inspiring insights however, and to receive surprising messages and blessings. No spooky voices from 'beyond' of course, but occasionally that feeling that we are on holy ground and it's time to listen.

Everybody's welcome. If it's your thing, or you wonder whether it might be, come along. Independent Living residents are welcome too.

And for everybody else (!) have a wonderful, refreshing, cool, and 'not too mad' March!

The Home is a Christian Community where, in a family environment, Residents and Staff provide mutual care.

WORDS FROM OUR INTERIM CEO

Uby Faddoul

Your New CEO

By now you may well be aware that the Board of Lutheran Homes Barossa has announced the engagement of Michelle Schupelius as the new Chief Executive Officer. We look forward to having Michelle join our wonderful team, as together we take Lutheran Homes Barossa into an exciting future. As always, the emphasis of our services will be around supporting residents both physically and spiritually and providing a loving Christian community.

I will be around through to the end of April to support the management team and staff in the transition process, and to ensure a comprehensive handover process is undertaken with Michelle.

Michelle may be known to some of you as she resides with her family in Kapunda and is a regular visitor to the Barossa. Her roles over the last 10 years demonstrate a wealth of experience across many aspects of Aged Care.

I won't farewell you yet, there will be time for goodbyes later!

A Celebration of Innovation and Excellence in Robotics!

Robotics Australia Group launched the Excellence in Robotics Awards 2025

More information can be found on page 11, however I'm pleased to announce *the winner is.... Lutheran Homes Barossa*. We shared the spoils with Advanced Navigation in the *Defense, Emergency Response, and Healthcare Category*. Rachel Strudwick, Executive Operations Manager and Sharon Berridge, Executive Care Manager attended the awards evening in Melbourne and nursed the trophy home to the Barossa! Well done to Rachel, Sharon, and to all the teams who are involved in our robotics program here at Lutheran Homes Barossa – keep up the great work!

Resident Committees

Over the past weeks, I have had the pleasure of attending the Residents meetings at both the Residential Aged Care Facility and Tanunda Retirement Living. Thank you all for the lovely welcomes, for your hard work, commitment, and passion in assisting us in continuing to be the best we can for our Residents.

I was also able to meet with Mary Sofoclis, Relationships Manager LCA, whilst she was in Adelaide and connect with the CEO and Chair of the Lutheran Homes Group. We are fortunate to have a great network of like-minded people and organisations to collaborate with. Additionally, some of our staff and Board members attending collaboration workshops as organised by Mary whilst in Adelaide. My thanks goes out to Mary and to LCA for their tireless efforts in widespread engagement and collaboration initiatives.

Final Word

As we embrace and continue our organisation's journey of improvement, we need to appreciate the experiences of the past, embrace the possibilities of today, and create a future where every moment is filled with purpose, joy, and connection.

Belinda Treloar - Customer Service, Volunteer and Leisure Coordinator HOME UPDATES:

LHB has experienced 0 Covid infections in January and February. The latest update is that there is no longer a need for visitors to complete a Rapid Antigen Test (RAT) before entering the Home. We still ask visitors to please sign in via our Zipline for safety reasons – if we don't know you are here when the alarm sounds, we won't know to look for you to evacuate if necessary.

Prevent infections by ensuring you wash your hands with warm water and liquid soap before and after touching people, animals and surfaces that are frequently touched by others. This way you won't catch anything, nor will you spread anything to others.

When visiting residents who are unwell with infections, please follow any Infection Control signage that is present outside the resident's room. This is for yours and others protection from the spread of infection. LHB provides the equipment to protect you such as gowns, masks, gloves and glasses or face shields – please use them as indicated.

QUALITY NEWS

Aged Care Quality Standards Update:

Currently all Care Homes in Australia are going through the gradual change to the new Strengthened Aged Care Standards which commence from July 1st, 2025. The new Standards are more comprehensive and are focused more on a person-centred approach, rather than the old standards which focused on what a home needed to do for funding.

So, what does this mean for you, as a resident of Lutheran Homes Barossa?

This means there will be a larger focus on you and your care being personalised to what matters most to you. Your choices, preferences and independence will be at the centre of what and how care and services are provided.

Below are the new Standards written in the perspective of a resident. Over the next several TitTats, I will give a brief explanation of each Standard. If you have any questions, please don't hesitate to contact Jessica Osborne, Quality Officer.

Standard 1 The Person:

I am valued and have a choice over the life I lead.

Standard 2 The Organisation:

I have confidence in my service provider.

Standard 3 The Care and Services:

My care is based around who I am and what's important to me.

Standard 4 The Environment:

I feel safe and supported where I live.

Standard 5 Clinical Care:

I get the right clinical care for me.

Standard 6 Food and Nutrition:

I enjoy tasty and nutritious meals every day.

Standard 7 The Residential Community:

I am supported to build and maintain relationships.

"Be the reason someone feels welcomed, seen, heard, valued, loved and supported."

ROBOTS

A Celebration of Innovation and Excellence in Robotics!

Robotics Australia Group launched the Excellence in Robotics Awards 2025, an initiative to honour and celebrate the groundbreaking work being done in the field of robotics across Australia. These awards are dedicated to recognising the pioneers and innovators who are pushing the

boundaries of technology, transforming industries, and making significant contributions to the future of robotics.

Lutheran Homes Barossa submitted an application to Robotics Australia Group in December 2024, in collaboration with Omni-Health. We received an email notifying us that we were finalists, and ultimately, we won.

In our category, there were three finalists, and Lutheran Homes Barossa shared the win with Advanced Navigation. Robotics Australia has no affiliation with Omni-Health. The award was granted based on merit, achievement, and future-proofing robotics in healthcare, demonstrating innovation ahead of our time.

Why did the robot break up with its charger? It just couldn't find the connection anymore!
